

Oregon

State outlook

As Oregon’s population ages, older residents will play a critical role in the state’s economic growth, fueling innovation and making economic and social contributions that benefit people of all ages. Policymakers, business leaders and elected officials must ensure programs and policies are in place to unlock the full potential of this economic engine.

Key findings

Oregon’s 50-plus residents contribute more to the state’s economy than their share of the population.

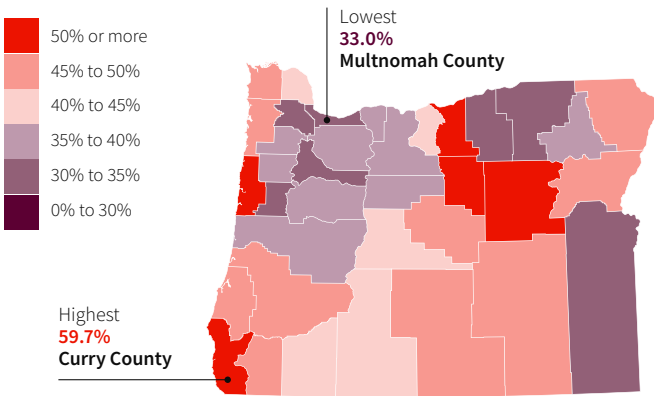

Their impact totals \$152 billion—44% of the state’s GDP in 2024—while people 50-plus account for 38% of the population. This contribution will grow to \$308 billion by 2060 (48% of GDP), reinforcing their role as a key driver of economic growth.

The economic activity of Oregon’s 50-plus population will drive substantial tax revenue for decades.

In 2024, the activities of people 50-plus supported \$13 billion in state and local taxes (40% of Oregon’s total). That figure will expand to \$29 billion by 2060.

Where do people age 50-plus live?

% share by county, 2024

Net 50-plus migration to Oregon in 2024

Per-capita migration: +1.4 migrants per 1,000 50-plus residents
Rank: 18th nationally where states range from 10.6 (Idaho) to -9.9 (District of Columbia).

Overview: Economic impact of the 50-plus population

	2018		2024		2060	
	Impact	% of total	Impact	% of total	Impact	% of total
State GDP*	\$130B	42	\$152B	44	\$308B	48
Jobs	1.1M	44	1.2M	46	1.5M	50
Wages and salaries*	\$86B	46	\$99B	48	\$198B	52
State and local taxes*	\$11B	38	\$13B	40	\$29B	45

The 50-plus cohort will grow from 38% of the population in 2024 to 45% by 2060

Oregon

Note: on this page, all charts depicting "50-plus spending" refer to consumption expenditure by households headed by someone age 50 or older.

As a major source of Oregon's consumer spending, 50-plus households will drive economic growth across sectors

Spending of the 50-plus population by product (\$ billion, 2024 prices)

% growth, adjusted for inflation

Unpaid contributions

Beyond their economic contributions, the 50-plus cohort also spends time engaging in vital activities like volunteering and caregiving for children and adults. The 50-plus population in Oregon contributed \$2.5 billion in volunteering activities and \$10.4 billion in unpaid caregiving in 2024, with the average person spending 53 and 477 hours on each, respectively, over the entire year.

The 50-plus population provides \$19.5 billion in unpaid contributions

Labor force: In 2024 there were 714,000 workers age 50-plus, representing 33% of the state's total labor force

Methodology

This profile details the contribution of the 50-plus population, both in-state and through interstate commerce, to the state's economy. The overall impact includes the direct effects of their spending, work contributions and taxes paid. It also includes the ripple effects this generates—via business supply chains and through the wages and spending of other workers. All forecasts are informed by data from REMI, the Bureau of Economic Analysis, Bureau of Labor Statistics, United States Census Bureau, Harvard's Joint Center for Housing Studies and Economist Enterprise's macroeconomic forecasts. For further details, see: <http://www.aarp.org/longevity>
