

Hawaii

COVID-19 School Data Hub Details

Learning Model Data Availability

Data Level	Data Type	Available?	Enrollment by Learning Model	Time Interval/Coverage
District	Learning Model Status	No	-	-
School	Learning Model Status	Yes	-	Monthly, Aug 2020-May 2021

COVID-19 and Masking Data Availability

Data Level	Data Type	Available?
District	COVID-19 Case Data	Yes
School	COVID-19 Case Data	No
District	Masking Data	Yes

Please see below for further details for each data type.

Overview of Learning Model Data from the COVID-19 School Data Hub

The CSDH includes learning model data for K-12 public schools as provided by state agencies (e.g., departments of education or health), which can be accessed here: <https://www.covidschooldatahub.com/>. State data files do not include private schools, schools serving only as pre-kindergarten/early childhood centers, student services spanning multiple school districts, homeschool programs, residential programs, programs designed for youth ages 18-21, exclusively or primarily online/virtual schools, or adult programs.

CSDH files are organized into a consistent structure across states, and have been matched to NCES IDs and NCES school/district type. This information can be used in conjunction with the NCES school and district demographic files here: https://www.covidschooldatahub.com/for_researchers. Learning models are defined for the purposes of our dataset as follows:

- **In-person:** All or most students received instruction in person, 5 days a week.
- **Hybrid:** All or most students received a blend of in-person and virtual instruction.
- **Virtual:** All or most students received instruction virtually, 5 days a week.

The learning model data that were publicly available or submitted to CSDH upon request are presented as the state's best knowledge about the learning model status of their schools and districts. The data have been cleaned and standardized, but CSDH has not conducted additional verification of this information. All learning model data are available in csv and Excel formats. State-specific information can be found below, and more information on CSDH data methods can be found here: <https://www.covidschooldatahub.com/methods>.

In some cases, the learning model information provided by state agencies was collected as part of the state's plan to determine and disburse benefits as part of the Pandemic Electronic Benefit Transfer (P-EBT) program through the U.S. Department of Agriculture. More information can be found at <https://www.fns.usda.gov/snap/state-guidance-coronavirus-pandemic-ebt-pebt>.

A. Learning Model Status & Enrollment

Learning Model Data Details		
District file	Not available	
School file	Learning model data available; no enrollment by learning model data available	
Data source	State of Hawaii, Department of Human Services (DHS)	
Learning model statuses used by state (with definitions, if available)	State Definition	CSDH Classification
	In-person learning: <i>No definition provided</i>	In-person
	Hybrid/blended learning: A combination of in-person and virtual learning	Hybrid
	Full distance learning: More than 75% of the students are distance learning	Virtual
	-	Closed
	<i>Schools needed to be participating with the National School Lunch Program for their students to qualify for PEBT. Schools with missing information were not NSLP participants.</i>	Blank
Data time interval	Monthly, from August 2020 - May 2021. The start and end dates of each time period were assigned as the first and last days of the month.	
Enrollment total	The EnrollmentTotal variable presents Hawaii's official K-12 student enrollment data for the 2020-21 school year for each school. Data are available from the Hawaii State Department of Education at https://www.hawaiipublicschools.org/VisionForSuccess/SchoolDataAndReports/SchoolReports/Pages/home.aspx . For each school, the official EnrollmentTotal is applied across all time periods.	
Additional state learning model data details	<u>School-level</u> Hawaii's learning model information was collected as part of the Pandemic Electronic Benefits Transfer program (P-EBT). The Hawaii P-EBT program is a partnership between the Department of Human Services (DHS) and the Department of Education (DOE). Learning model classifications are not available in cases where schools are not participants of the National School Lunch Program.	
Staff counts	School-level staff counts for 2020-21 are not available.	
Version history	<ul style="list-style-type: none"> 4/25/22: School file released. 	

B. COVID-19 Case Data

COVID-19 Case Data Details		
Data available?	Yes (Complex area)	
Case count reporting	<ul style="list-style-type: none"> Staff and students reported together <p>Cases confirmed after the final weekly counts are published are included in the following week's total.</p> <p>Totals per Complex Area reflect a higher number than the cumulative statewide total due to the fact that some cases impacted multiple complex areas and are recorded as duplicated counts despite being one incident. Off-campus cases that had no impact on employees, students and/or school facilities are included in the Complex Area total. These off campus cases are not included in our dataset.</p>	
Data time interval	Weekly	
Data suppression	Hawaii does not mask cases	
Data source	Hawaii State Department of Education	
Variables used from original data	Original Variable in State Data	CSDH Dataset Variable
	Island	Not Mapped
	Complex Area	DistrictName
	Staff COVID Cases	NewCasesStaff
	Student COVID Cases	NewCasesStudents
	Report Date	TimePeriodEnd and TimePeriodStart
Version history	<ul style="list-style-type: none"> 9/15/21: Case data file released. 	

C. Masking Data

Masking Data Details	
Data available?	Yes (District)
Data source	HI enacted a statewide mandate, which included schools and districts, throughout the 2020-21 school year.
Additional data details	The HI data reflect a masking policy in effect for staff and students across all districts for the full 2020-21 school year.
Version history	<ul style="list-style-type: none"> 9/15/21: Masking file released.
