

## Pandemic Schooling Mode and Assessment Outcomes Data Series

# TENNESSEE

## State Snapshot

### LEVEL OF ACCESS TO IN-PERSON INSTRUCTION, 2020-21

Note. Tennessee students were classified according to their level of access to in-person instruction in 2020-21, based on their district's learning model categorizations over the course of the year (in-person, hybrid, virtual). Of 954,129 students in K-12 included in the analysis, 16% had *very high* levels of access to in-person instruction ( $n=148,936$ ), 9% had *high* access ( $n=83,794$ ), 55% had *moderate* access ( $n=529,455$ ), 20% had *low* access ( $n=191,944$ ), and no students had *very low* access ( $n=0$ ).

### HIGHLIGHTS

- **Level of In-Person Access:** In 2020-21, 16% of Tennessee students were in districts that offered *very high* levels of in-person instruction. No students had *very low* access to full in-person instruction.
- **Average Changes in Academic Proficiency:** Relative to Spring 2019, the number of Tennessee students achieving **ELA** and **math** proficiency was 7.7 percentage points lower in 2021. The number of students **ELA** and **math** proficiency in 2022 was 1.7 percentage points lower than in 2019, on average.
- **Changes in Academic Proficiency by Level of Access to In-Person Instruction:** Students in districts with *very low* levels of in-person instruction experienced the greatest declines in **ELA** and **math** proficiency in Spring 2021, relative to Spring 2019. By 2022, change by level of in-person access were more varied.

### TENNESSEE AVERAGE CHANGE IN ACADEMIC PROFICIENCY

Change in Percentage of Students in Grades 3–8 Achieving **ELA** Proficiency Compared to Spring 2019, by Level of Access to Full In-Person Instruction in 2020-21

Change in Percentage of Students in Grades 3–8 Achieving **Math** Proficiency Compared to Spring 2019, by Level of Access to Full In-Person Instruction in 2020-21

Note. As displayed in the pie chart above, the distribution of students across categorizations varies. The "very low" category is not displayed here (no students were in this category).

## PANDEMIC SCHOOLING MODE DATA

Pandemic schooling mode data for Tennessee’s 2020–21 school year were provided by the Tennessee Department of Education. Data are available between September 2020–May 2021. For more information and to access the data, visit <https://www.covidschooldatahub.com/states/tennessee>.

To determine the *level of access to in-person instruction* in 2020-21, the COVID-19 School Data Hub (CSDH) first determined the percentage of the school year that students within each district were offered full in-person instruction, hybrid instruction, or virtual instruction. Note that the data reflect the *predominant* model used by a school or district during a given time period. Also, students may have opted for virtual learning even if their school’s predominant learning model was in-person or hybrid.

Next, for the purposes of this Data Series, districts were classified into **five levels of access to in-person instruction**, based on the following formula:

$$\% \text{ of the year in-person} * 100 + \% \text{ of the year hybrid} * 50 + \% \text{ of the year virtual} * 0$$

### Scores and level of in-person access classifications:

<b>Score:</b>	<b>0-20</b>	<b>&gt;20-40</b>	<b>&gt;40-60</b>	<b>&gt;60-80</b>	<b>&gt;80-100</b>
<b>Classification:</b>	Very low	Low	Moderate	High	Very high

## STATE ASSESSMENT DATA

The student outcome data used in this Data Brief come from Tennessee’s TNReady assessment as part of the Tennessee Comprehensive Assessment Program (TCAP). The data represent outcomes for students in Grades 3–8 in math and ELA.

### Measuring Proficiency

The state’s ELA and math assessments include four proficiency levels: *Below Expectations*, *Approaching Expectations*, *Met Expectations*, and *Exceeded Expectations*. In this report, “**proficient**” = the percent of students meeting or exceeding expectations.

### Years Included in Analysis

This report reflects school years (SY) 2018-19 and 2021-22. Data for SY 2019-20 are not available, as the assessment was not administered due to the COVID-19 pandemic.

### Participation Rate Data

In Spring 2021, the U.S. Department of Education waived the requirement that 95% of all students complete the state’s annual academic assessment, leading to varied participation rates by state. In Tennessee, statewide TCAP participation reached 95% in 2021. In Spring 2022, districts were again required to measure the achievement of not less than 95% of all students and students in each subgroup on its annual statewide assessments in math and ELA.

### Additional Information

More information about the Tennessee Comprehensive Assessment Program (TCAP) can be found at <https://www.tn.gov/education/assessment/tnready.html>

## ABOUT THE DATA SERIES

*The Pandemic Schooling Mode and Assessment Outcomes Data Series explores how differences in schooling mode (in-person, hybrid, or virtual) during the first full pandemic school year of 2020–21 relate to changes in student academic outcomes.*

*Specifically, the Data Series presents changes in math and ELA proficiency on state assessments in Spring 2021 and Spring 2022, relative to Spring 2019, by level of access to full in-person instruction in the 2020-21 school year.*

*For additional Data Briefs available through this Data Series, please visit <https://www.covidschooldatahub.com>. For any questions, please email [covid19schooldatahub@gmail.com](mailto:covid19schooldatahub@gmail.com).*

*The COVID-19 School Data Hub (CSDH) integrates data provided from state agencies about the learning models of instruction (in-person, hybrid, or virtual) used in their public K-12 schools and districts over the course of the 2020-21 school year. This public database provides a valuable resource for researchers who are seeking to explore a variety of outcomes based on students’ modes of learning during the first full school year of the COVID-19 pandemic. School- and district-level data files are publicly accessible at <https://www.covidschooldatahub.com>.*
