

Puzzles, wonky towers, guardian angels – the new HABA products for a colorful fall 2022

Bad Rodach, July 2022 – HABA ushers in the fall with many new play and toy products. Whether you're building, puzzling, cuddling, or reading – there's something for every age group to playfully pass long evenings.

From the popular Logic! series comes the next game for colorful puzzle fun. Following the Logic! CASE puzzle cards, HABA now presents the smart **logic and hidden object game "Where is Wanda?"** 60 puzzles with an increasing degree of difficulty await children ages 4 years and older, whose task is to track down the little monster Wanda in the colorful hustle and bustle of the house. A colorful puzzle game that trains precise observation and children's first combination and spatial assignment skills – in a super fun way like all HABA games!

Two new adventures of the popular **investigative crime game "The Key"** are waiting to be solved by children ages 8 years and older: **"The Key – Royal Star Casino Burglary"** and the particularly tricky case **"The Key – Escape from Strongwall Prison."** Only those who combine all hints as efficiently as possible will find the right code for the solution. The varying rounds and many game variations make replaying particularly appealing. The games can be played alone or, as is particularly popular at the moment, cooperatively.

HABA presents building blocks in a different way with the **3D arranging game "Wonky Towers."** Using the enclosed template cards, wonky towers, wobbly bridges or slanted figures are constructed from the blocks, wedges and steps. The addition of balls allows construction of even more trickier constructions. The unusual shapes not only ensure plenty of building fun – they also help to develop fine motor skills, concentration, and hand-eye coordination through play.

Budding readers aged 10 months and older can use the **HABA baby books** to practice how it feels to hold a book in their hands and develop their creativity. The five colorful sides, made of lightweight, sturdy lime plywood, can be turned easily thanks to the handle hole on the side. There are three colorful HABA stories to discover: "The Orchard," "Forest Animals," and "Dinos."

Go through life protected from the very beginning – with the new HABA **guardian angels**. Whether for a birth, a christening, a birthday, or just because, the cute angels are the perfect companions for babies and children. HABA presents the guardian angel series with **mini dolls, pacifier and pram decoration, and dangling figures**. Every product offers haptic enjoyment, is manufactured from untreated wood where possible, and can accompany little ones from the very beginning.

About HABA

HABA has made it their mission to bring joy to children. At the same time, children also develop abilities such as social, fine motor skills, and communication skills. Our products allow children to develop at an age-appropriate level and without pressure. Our toys allow us to accompany babies and toddlers in all their individual developmental stages. We go on expeditions and adventures in nature with children and our Terra Kids outdoor products. People of all ages come together at the table with our family games. We support children and their families. Every day. From the very start. For a lifetime.
