

The background of the entire page is a blue-tinted photograph. It shows a man and a woman, both wearing light-colored polo shirts, leaning over a table in what appears to be a manufacturing or research environment. They are looking at a laptop. In the foreground, there are several cylindrical metal parts, possibly 3D printed or machined, scattered on the table. The overall tone is professional and technological.

Research & Education **MEMBERSHIP**

APPLICATION

AMTonline.org

Please complete both pages. For questions about the application or application process, please contact Greg Jones at 703-827-5203 or GJones@amtonline.org

In order to qualify as an AMT Research and Education affiliate, your organization must:

- Be located in the United States
- Be willing to collaborate with AMT members and AMT
- Have one or more current ongoing programs structured to assist the advancement of the manufacturing technology industry
- Conduct full time research activities in the manufacturing arena or function as a full-time educational institute with curriculum in manufacturing areas.

Describe organization/program - List degree programs in manufacturing, engineering, and manufacturing technology.

List websites or send literature to provide additional information.

I understand that there are no dues to become a Research & Education Affiliate, and that it is my responsibility to terminate the relationship if requirements for eligibility are not met on an ongoing basis. I further understand that AMT reserves the right to terminate AMT Research & Education Affiliate status at any point that the requirements are not met or for any reason deemed appropriate.

Name

Date

Note: Companies who produce manufacturing technology in the United States and who qualify for regular membership with AMT are not eligible to join as a AMT Research & Education Affiliate.

AFFILIATE PROGRAM

The importance of maintaining a strong industrial base has been a key topic of discussion in both industry and government. AMT – The Association For Manufacturing Technology recognizes the need for our members to develop and deliver products that outpace global competitive offerings.

The AMT Research & Education Affiliate category responds to this need. Qualifying organizations are those with a program structured to aid the advancement of the manufacturing technology industry. They will work in cooperation with AMT members to strengthen the U.S. manufacturing technology base.

AMT Affiliates, therefore, are invited to join AMT with a common interest to:

- Establish links between the R&D community, AMT members, AMT and other supporting organizations
- Create collaborative opportunities to enhance member competitiveness
- Assist in providing broad networking opportunities
- Strengthen the image of AMT and the Affiliates
- Promote opportunities for students in the manufacturing technology industry

Becoming an AMT Affiliate provides you with the following benefits:

- Networking opportunities with leading American manufacturing technology providers
- Firsthand industry feedback via participation in AMT meetings and events
- Access to the AMT Strategic Analytics staff for ongoing projects with AMT members
- Member access to the AMT website, AMTonline.org
- Attendance and participation at association meetings and events at AMT member rates and policies
- Receive MT Manufacturing Technology magazines and other AMT publications

AMT Affiliate Dues:

- There are no dues to join as an AMT Affiliate
