

Applanix POSPac UAV License bundle

- Unleash the Power of GNSS-Inertial Post-Processing

Experience a new era of efficiency and performance with our all-in-one term license. This comprehensive solution offers unparalleled benefits, including:

- **Unmatched Versatility:** Includes Applanix® Single Base (SiB), SmartBase (SmB), and PP-RTX processing, adapting to your project needs.
- **Significant Cost Savings:** Enjoy substantial savings with a dramatically reduced price for the embedded PP-RTX service and unlock even more value with our multi-year packages (up to 25% off!).
- **Simplicity and Convenience:** Streamline your workflow with a single license that covers all your processing requirements.
- **Maximum Performance:** Harness the power of the latest Applanix POSPac™ Engine for optimal [PP-RTX](#) performance across the globe.

Upgrade to the **Applanix POSPac UAV Complete License bundle** today and unlock the full potential of your GNSS-Inertial post-processing.
