Subject: POSPac Complete 2025.10 Release and associated Licensing changes

Dear Valued Customer,

We are thrilled to announce the upcoming release of **POSPac Complete 2025.10**, our next-generation mobile mapping software. This all-new version, featuring embedded Trimble CenterPoint RTX, delivers exceptional value and performance, enabling enhanced accuracy and productivity for your mobile mapping operations—whether by air, land, or water.

For comprehensive details on the new version, please contact sales@applanix.com or customersuccess@applanix.com

Important Licensing Information for POSPac Complete

This letter clarifies the licensing structure for POSPac Complete going forward. To maximize value, flexibility, and simplicity, and due to its integration with the CenterPoint RTX service, **POSPac Complete 2025.10 will be exclusively available through term licenses.** These licenses can be purchased for single or multiple-year terms to suit your specific needs. The End-of-Sales (EOS) for POSPac 9.X is December 31st, 2025, with the exception of two GNSS/INS perpetual licenses, as outlined in the "Continued Sales of POSPac 9.X Perpetual Licenses" section further below.

Transitioning from POSPac 9.X to POSPac Complete

Customers with a valid maintenance contract for POSPac MMS or POSPac UAV at the time of the POSPac Complete 2025.10 release will receive a **complimentary demo license** for POSPac Complete 2025.10. The duration of this demo license will match the remaining time on your existing maintenance contract. Demo term licenses of LiDAR QC Tools and Camera QC Tools will also be provided for perpetual versions of LiDAR QC Tools and Photogrammetry Tools that are under maintenance.

Additionally, to facilitate a smooth transition, eligible customers will be offered a **special conversion price** equivalent to the current perpetual maintenance price for POSPac MMS SmartBase.

Continued Sales of POSPac 9.X Perpetual Licenses

To accommodate specific customer requirements, **perpetual licenses for POSPac 9.X will continue to be available until further notice** for the following configurations:

- POSPac MMS, SmartBase
- POSPac UAV, Single Base

Purchases of these POSPac 9.X perpetual licenses **will include an equivalent term license for POSPac Complete 2025.10, aligning with the POSPac 9.X maintenance period**. This provides customers with a second license seat and encourages adoption of the new product. Maintenance for these specific POSPac 9.X perpetual licenses will remain available until POSPac 9.X reaches its End of Life (EOL), a date to be determined and announced later.

Important Note on Existing Perpetual Licenses

Existing POSPac 9.X perpetual licenses will continue to function with the POSPac 9.X versions they were issued for. However, **these licenses will not be compatible with POSPac Complete 2025.10 or any subsequent releases.**

For more information or to discuss your specific licensing options, please contact our sales or customer success teams:

sales@applanix.com or customersuccess@applanix.com

Best regards,

Your Trimble Applanix Team
