What Is Review Rush?

At its core, [Review Rush](#) is a **client acquisition system** built around helping local businesses generate more reviews using simple methods and AI-powered workflows.

Instead of:

- Creating complicated funnels
- Running ads
- Or building long-term SEO sites

This system focuses on something much easier:

- **Offer a service businesses already want (more reviews)**
- **Use simple scripts + tools to deliver results**
- **Get paid quickly**

That's why you'll often see it positioned as a **"fast client system"** — because it removes most of the technical barriers beginners struggle with.

Why This Model Works (Important Insight)
