Product Fact Sheet Suncare™

NOURISH YOUR SKIN

Stevia rebaudiana is a plant belonging to the chrysanthemum family. It is native to South America. Stevia leaves have been used for centuries by the indigenous people. Formulated with herbal extracts, Suncare™ smoothes and nourishes delicate skin as well as make a great beauty masque.

PHILOSOPHY OF REGENERATION®

The formula for Suncare™ stevia extract is based on the Philosophy of Regeneration®—the belief that we should nourish and cleanse our bodies with the best nutrition to reach balance, and thus optimal health. Sunrider is an early innovator in the manufacturing and marketing of products that contain stevia.

INGREDIENT HIGHLIGHTS

STEVIA

This natural sweet-tasting plant belongs to the chrysanthemum family and originated in South America. It contains many natural antioxidants that are further enhanced through Sunrider's concentration process to help skin look visibly younger, brightened and refreshed.

CHRYSANTHEMUM

This beautiful flower contains antioxidants and essential minerals to help improve the texture of skin.

FAQS

Q: Where does stevia come from?

A: Stevia extract comes from the Stevia rebaudiana plant, an herb in the chrysanthemum family that grows wild as a small shrub in parts of Paraguay and Brazil.

Q: How is Suncare™ different from SuncarePlus™?

A: Suncare™ is a concentrated raw extract of stevia, while SuncarePlus™ is a purified extract concentrate of stevia. Compared to Suncare™, SuncarePlus™ has a lighter color and a higher concentration of the sweet-tasting component of the stevia plant.

RECOMMENDATION

After cleansing apply Suncare™ topically. Allow to dry. Rinse with water. For external use only.
