## INGREDIENT HIGHLIGHTS

### POTASSIUM

This vital macromineral plays a key role in your overall health and well-being. It helps maintain proper fluid levels, ensure the muscles and nerves are working appropriately, and keep the heart beating regularly.\*

### MAGNESIUM

One of the seven essential macrominerals, magnesium plays a big role in both anaerobic and aerobic energy production, particularly in the metabolism of adenosine triphosphate (ATP), the “energy currency” of the body.\*

### SELENIUM

This important mineral supports antioxidant activity that defends against free radical damage and inflammation and supports a healthy metabolism and immune system.\*

## FAQs

- Q: What are electrolytes and why are they important?**
- A:** Electrolytes are minerals that conduct an electrical charge when mixed with water. They help regulate a variety of your body's most essential functions, including hydration, pH balance, nerve signaling, and muscle contraction.
- Q: Why do we need to replenish electrolytes?**
- A:** The balance of electrolytes in your body can be easily altered by sweating, vomiting, and diarrhea. People who exercise regularly should replace their electrolytes by drinking a healthy liquid concentrate like ElectroSport®.
- Q: What are some of the key minerals in ElectroSport®?**
- A:** ElectroSport® contains a wide spectrum of key minerals, including calcium, potassium, magnesium, zinc, iron, manganese, chromium, and selenium. Our formula is expertly made to ensure rapid absorption of micro- and macrominerals.
