CASTOR SEED OIL

FAQS

Q: What is the difference between an eyetrim pencil and a liquid eyeliner?

A: Pencil eyeliner is easy to apply, tends to have a longer shelf life, and doesn't dry out. They also create a softer look. They smudge easier than liquid eyeliners and require sharpening to deliver a defined look. Liquid eyeliners tend to last longer and create a more dramatic look. They are trickier to apply (requires practice), dry out faster, and can create a heavy look if improperly applied. It comes down to personal preference. We recommend having both options: a Kandesn[®] Liquid Eyeliner and a Kandesn[®] Eyetrim Pencil in your makeup arsenal.

RECOMMENDATION

Use Kandesn[®] Eyetrim Pencil on upper and/or lower eyelid at frame line. Use to fill in or enhance eyebrow line.
