This tropical plant has antiseptic properties and has shown to be effective in reducing plaque buildup.

SODIUM BICARBONATE
Commonly known as baking soda, sodium bicarbonate has mild abrasivity, making it gentle yet effective for cleaning teeth and gums.

FAQs

Q: How is SunSmile® Kids Herbal Toothpaste different from other brands?

A: Most mainstream toothpastes must include a warning label because they contain chemicals that can be potentially harmful if swallowed or absorbed. Most brands are made with artificial additives and abrasive cleaning agents, too.

In contrast, SunSmile® Kids Herbal Toothpaste is made with natural ingredients, free of potentially harmful chemicals and artificial colors, and flavors. Its fun color and berry flavor even come from natural fruit and herbal extracts.

NOURISH + CLEANSE = BALANCE

Sunrider® products are based on a simple yet powerful idea that blends Traditional Chinese Medicine with advanced science. We call it our Philosophy of Regeneration®. When you nourish with only the finest natural ingredients and cleanse of harmful chemicals and artificial colors, flavors, and preservatives, you bring your body into balance. A balanced body is a healthy body.
