## INGREDIENT HIGHLIGHTS

### GINGKO BILOBA

This plant contains high levels of flavonoids and terpenoids, compounds known for their strong antioxidant effects, which may include neuroprotective benefits.

### NATURAL CHOLINE

This natural choline compound, L-Alpha Glycerolphosphorylcholine, increases the release of the neurotransmitter acetylcholine, which has been shown to support learning, focus, and memory.

### VITAMIN B9 (FOLATE) & VITAMIN B12

Folate is believed to slow age-related cognitive and memory decline while vitamin B12 helps in the production of neurotransmitters, which relay messages in the nervous system and brain.

### PHOSPHOLIPIDS

Phosphatidylserine is a phospholipid that covers and protects the cells in your brain and carries messages between them. It plays an important role in keeping your mind and memory sharp.

## FAQs

**Q: How is Top® Focus different from other “mental performance” products?**

**A:** Many of these products contain stimulants, or they contain just a few key ingredients that only work on one neural pathway. Top® Focus is different because we synergize herbal extracts such as Ginkgo biloba, and green tea, plus minerals, amino acids, lipids, and vitamins known to support brain health and function.

**A: How long do the benefits last, and will it negatively affect my mood or sleep?**

**Q:** Top® Focus starts working in 15 minutes and lasts for about 4 hours. Made with select natural ingredients and free of sugars and added stimulants, it won't make you feel agitated, cause an energy crash, or interfere with sleep.

## NOURISH + CLEANSE = BALANCE

Sunrider® products are based on a simple yet powerful idea that blends Traditional Chinese Medicine with advanced science. We call it our Philosophy of Regeneration®. When you nourish with only the finest natural ingredients and cleanse of harmful chemicals and artificial colors, flavors, and preservatives, you bring your body into balance. A balanced body is a healthy body.
