## FAQs

**Q: How is SunSmile® Herbal Toothpaste different from other brands?**

**A:** Most mainstream toothpastes must include a warning label because they contain chemicals that can be potentially harmful if swallowed or absorbed. Most brands are made with artificial additives and abrasive cleaning agents, too.

In contrast, SunSmile® Herbal Toothpaste is made with natural ingredients, free of potentially harmful chemicals and artificial colors, flavors, and preservatives. Even its minty green color and flavor come from concentrated herbs like peppermint oil.
