FAQS

Q: What makes SunBar® better than competing products?

A: Unlike typical energy bars that are full of sugar, sodium, protein isolates or whey protein (which can be hard on digestion), trans fat, preservatives, and artificial ingredients, SunBar® is made from whole-food ingredients and herbs the body can easily absorb. SunBar® delivers solid nutritional value without empty calories, and questionable ingredients.

Q: I've heard that carbohydrates are bad to eat. Why are the carbs in SunBar® a good thing?

A: SunBar® contains a high percentage of complex carbohydrates, which burn more slowly in the body than simple carbohydrates. This is why SunBar® provides you with an even level of energy throughout the day.
