

# ENERGY PLUS™

Energize naturally, without artificial ingredients or a caffeine crash. This supercharged, antioxidant-rich herbal formula supports your energy levels, mood, and mental focus while protecting from exercise-related oxidative stress. Panax ginseng supports energy and cognitive function while bee pollen and wheat germ oil nourish with essential vitamins, minerals, lipids, and proteins.

## BENEFITS

- Delivers a natural boost of energy
- Supports mental focus
- No added caffeine, sugars, or artificial ingredients
- Provides antioxidant protection
- Natural form of vitamin E
- Oil-based formula for optimal absorption
- May reduce memory loss associated with normal aging

120 soft-gel capsules

#2603127

## INGREDIENT HIGHLIGHTS

### PANAX GINSENG

This herb has been used for traditional medicinal purposes for centuries, primarily to support cognitive function, energy, and immune function.

### BEE POLLEN

This superfood is considered one of nature's most completely nourishing foods, containing vitamins, minerals, antioxidants, carbohydrates, lipids, and protein. The range of nutrients found in bee pollen makes it a great natural energizer.

### WHEAT GERM OIL

Extracted from the germ of the wheat kernel, wheat germ oil is high in vitamin E and a good source of magnesium, zinc, thiamin, folate, potassium, selenium, and phosphorus.

## FAQs

**Q: What are some of the benefits of taking Energy Plus™?**

**A:** Energy Plus™ provides an optimal way to ensure your body has enough vitamin E, as well as supporting energy levels and mental focus with its unique formula of herbal ingredients. Each soft-gel capsule contains 670% of the daily value of vitamin E.

The main function of vitamin E in the body is to work as an antioxidant, scavenging loose electrons—called "free radicals"—that can damage cells. Free radicals weaken and break down healthy cells and may contribute to heart disease and cancer. These molecules form as a result of normal body processes and cause damage that shortens the life of your cells.

**Q: Why is the natural vitamin E in Energy Plus™ better than synthetic vitamin E?**

**A:** Energy Plus™ uses a natural form of vitamin E called d-alpha-tocopherol. Natural vitamin E is listed as d-alpha tocopheryl acetate, d-alpha tocopherol, or d-alpha tocopheryl succinate. In contrast, synthetic (made in a laboratory) forms of vitamin E are labeled with a dl- prefix. Due to its molecular structure, natural vitamin E is absorbed and assimilated much better in the body than its synthetic form, which is generally derived from petroleum products.

## INGREDIENTS

Vitamin E (D-Alpha Tocopheryl), Lecithin, Bee Pollen and Korean White Ginseng (Panax Ginseng).

Owner Expertise Formulation

Made with Natural Ingredients

Self-Manufactured in the USA

NSF Certified

## HOW TO USE

One soft-gel capsule at meal time.

## NOURISH + CLEANSE = BALANCE

Sunrider® products are based on a simple yet powerful idea that blends Traditional Chinese Medicine with advanced science. We call it our Philosophy of Regeneration®. When you nourish with only the finest natural ingredients and cleanse of harmful chemicals and artificial colors, flavors, and preservatives, you bring your body into balance. A balanced body is a healthy body.
