

Product Fact Sheet

Oi-Lin[®] Replenish Gel

BENEFITS

- Nourishing skin softener
- Minimizes the appearance of fine lines and wrinkles
- Seals in moisture with soothing botanical emollients
- Non-greasy anhydrous gel glides effortlessly onto the skin

TARGETS THE VISIBLE SIGNS OF AGING

The contours of the eyes and lips are particularly delicate and prone to wrinkling. Oi-Lin[®] Replenish Gel is the ultimate restorative treatment because it instantly smoothes and minimizes the appearance of contour lines while sealing in other treatments beautifully. This advanced anhydrous (contains no water) gel features a powerful complex of skin-supporting antioxidant vitamins and sea buckthorn oil to help fight free radicals and turn back the clock on aging skin. The exclusive formula locks in moisture, providing a soothing emollient effect without a greasy feel.

PHILOSOPHY OF REGENERATION[®]

Sunrider specializes in innovative skin care solutions that are both supremely safe and effective. Our balanced approach combines cutting-edge science with the wisdom of our Philosophy of Regeneration[®], which advocates nourishing, cleansing, and balancing the skin with the finest plant-based ingredients. Specially formulated using the most advanced technologies, our products represent the next generation of skin care.

INGREDIENT HIGHLIGHTS

PANTHENOL

Panthenol is an emollient, moisturizer, and humectant (attracts and retains moisture from the air), which helps keep the layers of the skin looking soft and supple.

BETA-CAROTENE

Considered a provitamin because it converts to an active form of vitamin A (retinol), beta-carotene is an essential nutrient that supports skin beauty and health by supporting tissue and skin renewal.

EVENING PRIMROSE OIL

The oil from this wildflower helps to calm and soothe the skin. This property, together with the linoleic acid, helps support the skin's protective moisture barrier and promote soft, smooth, and more youthful-looking skin.

SEA BUCKTHORN OIL

Rich in omega fatty acids and antioxidants, sea buckthorn can be helpful for skin. It's also high in oleic acid, which makes it great for dry, irritated, or prematurely aging skin.

FAQ

- Q:** Why is the eye area particularly prone to wrinkles?
- A:** The signs of aging show up in the delicate eye area first. This is because the eye contour has the thinnest and most fragile skin on the entire face. Lacking in sebaceous glands, collagen, and elastin fibers, it's also under the strain of 22 muscles in perpetual motion and 10,000 blinks per day. It's no wonder why the eye contour is the first area to show signs of aging.

RECOMMENDATION

Apply Oi-Lin[®] Replenish Gel gently around the eyes, or any other area in need of intensive moisturization. Lightly tap on top of other products and around orbital bone. Allow it to be absorbed.
