

VEROS®

This super-concentrated herbal formula contains Sichuan Teasel and Chuan Xiong, ingredients used in Traditional Chinese Medicine (TCM) to activate and invigorate circulation. Healthy circulation is an important aspect of overall health, vitality, and well-being. Veros® uses a variety of select herbal extracts in its safe and effective formula and is free of added hormones and stimulants.

BENEFITS

- Contains herbs used to support healthy circulation
- Made with natural ingredients
- No added chemicals or stimulants
- Highly concentrated
- Expertly formulated for optimal results
- Safe for men and women

50 capsules

#20271

INGREDIENT HIGHLIGHTS

SICHUAN TEASEL ROOT

In TCM, teasel root is associated with the liver and kidney meridians, and has warm properties. Its functions include tonifying the liver and kidneys and supporting healthy blood circulation.

CHUAN XIONG RHIZOME

In TCM, this herb's main function is to promote the flow of blood and Qi, dispel wind, and relieve pain.

CODONOPSIS ROOT

The root of the codonopsis herb is commonly used in TCM as a general health tonic and to support healthy circulation.

 Made with Natural Ingredients	 NSF Certified

HOW TO USE

Adults: Take 3 capsules 3 times daily. For prolonged use, consult a health care practitioner.

FAQs

Q: Why is healthy circulation important?

A: Blood circulation is one of the most important functions in the body. It supplies oxygen and nutrients to many different cells in your body. Healthy circulation also promotes healthier skin and helps cell growth. Healthy circulation also helps support more stamina and endurance, which in turn can promote better performance in physical activities.

Q: What is Qi?

A: Qi (pronounced "chee") is the Chinese term for life energy, or life spirit, a vital force that flows through all living things. Qi is based on a simple principle: Any system in harmony tends toward health, well-being, and sustainability. A system in disharmony tends toward illness, disease, and collapse. Eating healthy foods is one of the first steps toward creating a healthy balance within our bodies.
