FAQs

Q: Why should I stop using an antiperspirant and use Kandesn® Herbal Deodorant instead?

A: To prevent sweating, antiperspirants work by clogging, closing, or blocking pores with powerful astringents like aluminum salts. This inhibits the body's ability to regulate its temperature and eliminate toxins, two major functions. Our herbal deodorant neutralises body odor with natural ingredients while also combating odor causing bacteria. And it does all this while letting your skin breathe and function normally.

HOW TO USE

Turn dial to raise product. Glide on, applying evenly to underarm. Replace cap after each use.
