INGREDIENT HIGHLIGHTS

L-ARGININE

In the body, the amino acid arginine changes into nitric oxide (NO), a powerful neurotransmitter that helps blood vessels relax and supports circulation. L-arginine also helps support healthy blood flow in the arteries of your heart.*

ACETYL-L-CARNITINE

This modified amino acid helps your body produce energy and is important for heart and brain function, muscle movement, and many other body processes.*

ALPHA-LIPOIC ACID

Vital to cellular energy production, this antioxidant helps neutralize the damage caused by free radicals. It also breaks down carbohydrates to supply energy.*

FAQs

Q: Can anyone benefit from Dr. Chen® MetaBooster®?

A: Yes, this fast-acting formula helps boost energy and a faster, more efficient metabolism in men and women. It also supplies powerful, highly concentrated antioxidants to fight free radicals, help your body dissolve toxins, and support immunity.*

Q: Why are highly concentrated antioxidants important?

A: In the words of Sunrider Founder Dr. Tei-Fu Chen, “Our bodies are like cars. We ‘burn’ food to create energy and emit ‘pollution’ as a by-product. In a car, the pollution goes out of the exhaust. In our bodies, some pollution is excreted and some remains in the form of free radicals, which attack healthy cells and cause premature aging, cellular damage, and disease. The highly concentrated antioxidants in Dr. Chen® MetaBooster® help stabilize these free radicals and prevent cellular damage.”*
