- Promotes mental clarity and focus
- Supports emotional balance and well-being
- All-natural ingredients
- No chemicals, hormones, or added stimulants

ACHIEVE PEAK MENTAL PERFORMANCE

Do you want to increase your mental performance? We have a solution for that too! Thanks to its unique herbal concentrate, Top® promotes more focused thinking and enhances mental freshness. The nutrient-rich components of the Top® capsule feed the brain's neurotransmitters, which is why many refer to this dietary supplement as the "brain energy source." Top® also promotes our mental and emotional balance and general sense of well-being.

PHILOSOPHY OF REGENERATION®

Thanks to Sunrider's expert formulation and manufacturing processes, the products have a higher concentration compared to other brands. Tens of kilograms of raw herbs, which go through the processes of cleaning, grinding, pulverizing, extracting, concentrating and drying, are necessary to obtain a single kilogram of the finished product. The optimal effectiveness of medicinal herbs can be further increased by using the spray-drying technique. When consuming Sunrider® products, you get the highest levels of antioxidants and nutrients with every capsule, packet and vial. Herein lies the true power of Sunrider's concentration.

INGREDIENT HIGHLIGHTS

MINT LEAF EXTRACT

Even the ancient Greeks knew the beneficial effects of mint and even used it to treat various diseases. One of the most important properties of mint is that it invigorates and thus has a refreshing effect on our body.

AMERICAN WORMWOOD ROOT

It has been used as a spice and medicinal herb since ancient times. It is able to remove waste and toxins from our body, helps to clean our digestive system, and speeds up and improves the processing of food.

LICORICE ROOT EXTRACT

Licorice root is a well-known medicinal plant whose medicinal effects have long been recognized. One of its positive properties is that when used together with other herbs, it enhances their power.

FAQS

Q: Who can take Top® capsules?

A: Top® is ideal for anyone who needs to improve mental focus, concentration and cognitive ability at work, at school or in everyday life.

RECOMMENDATION

Two capsules (as desired) at mealtime.
