INGREDIENT HIGHLIGHTS

DECYL POLYGLUCOSE

Derived from corn, this versatile, sulfate-free “green” surfactant is gentle on produce and non-irritating yet tough enough for serious surface cleaning.

HOW TO USE

To dilute: mix 1 inner capful of Sunsmile® Fruit & Vegetable Rinse in 3.75 liters of water.

Usage: for fruits and vegetables, dip in diluted solution for 1 minute. Pat fruits and vegetables dry.

For waxy coatings, dip fruits and vegetables in diluted solution for 5 minutes and wipe dry.

Avoid accidents: keep SunSmile® Fruit & Vegetable Rinse out of the reach of children.

If product gets in your eyes, rinse thoroughly with water. If swallowed, drink a glass of water to dilute.

FAQs

Q: Do I need to wash organic produce?

A: Yes. Even if you buy organic fruits and vegetables, the handling, packaging, shipping, and in-store displays may introduce a variety of contaminants. Likewise, even pre-washed produce might still have dirt, residue, bacteria, and chemicals on it.

Q: What is the cleansing agent in SunSmile® Fruit & Vegetable Rinse?

A: Our formula is powered by a biodegradable surfactant derived from corn starch (decyl polyglucose), which is edible and doesn't contain harmful residues.
