INGREDIENTS

Sodium Cocoyl Isethionate, Hydrogenated Castor Oil, Corn Starch, Cocamidopropyl Betaine, Glycerin, PEG-14M, Titanium Dioxide, Lactic Acid and Fragrance.

INGREDIENT HIGHLIGHTS

CORN STARCH

A fine white powder produced by milling maize seeds, corn starch is highly absorbent. It can help absorb any excess oil. Its soothing quality makes it an excellent remedy for skin problems, and its moisture-absorbing power and lack of scent make it a tried-and-true deodorizer.

CASTOR SEED OIL

A type of vegetable oil, castor seed oil is used as an emollient to maintain soft, supple skin.

GLYCERIN

Glycerin is great for the skin because it acts as a humectant, which is a substance that allows the skin to retain moisture.

FAQs

Q: What is a soapless cleanser?

A: Soap is typically made of a compound of natural oils or fats with sodium hydroxide or another strong alkaline solution. It's primarily used as a surfactant for washing, bathing, and cleaning. Soapless products are made without the combination of fats and alkaline products.

Kandesn® Beauty Bar is slightly acidic and complements the natural pH balance of the skin, so your skin feels cleansed and refreshed but not dry.

NOURISH + CLEANSE = BALANCE

Sunrider® products are based on a simple yet powerful idea that blends Traditional Chinese Medicine with advanced science. We call it our Philosophy of Regeneration®.
