INGREDIENT HIGHLIGHTS

SODIUM HYALURONATE

The salt form of the ingredient hyaluronic acid, sodium hyaluronate is considered more bioavailable to skin than pure hyaluronic acid and can hold up to 1,000 times its weight in water. It supports skin repair and renewal and remedies dryness, environmental stresses, and irritation.

SODIUM PCA

This naturally occurring humectant (moisturizer) has high water-absorbing properties and even has the ability to absorb moisture from the air. It holds several times its weight in water.

PEPTIDES

Peptides are chains of amino acids that are the building blocks of proteins in the skin. They support collagen production, visibly reducing the unwanted appearance of wrinkles to promote firmer, smoother, and more youthful-looking skin.

FAQs

Q: What Sunrider® products should I use with this product to get the best results?

A: First, cleanse face with Oi-Lin® Cleansing Cream, then cleanse with Oi-Lin® Revitalizing Cleanser. Apply Oi-Lin® Facial Toner with a cotton pad. Next, apply Dr. Chen® Refining & Lifting Cream, followed by Oi-Lin® Deep Moisture Lotion for best results.

Q: How does Dr. Chen® Refining & Lifting Cream work?

A: The advanced formula envelops skin with intense hygroscopic agents such as hyaluronic acid and sodium PCA, a naturally occurring humectant (a substance that promotes moisture retention) in the skin. Pea, bamboo, and other botanical extracts aid in firming and supporting skin's appearance. Oxygen transporters and peptides support skin function, revitalizing the skin for the appearance of increased smoothness.

NOURISH + CLEANSE = BALANCE

Sunrider® products are based on a simple yet powerful idea that blends Traditional Chinese Medicine with advanced science. We call it our Philosophy of Regeneration®.
