DR. CHEN® REFINING & LIFTING CREAM

Powered by innovative skincare ingredients, our age-defying treatment refines and lifts to refresh and rejuvenate your skin's appearance. Hyaluronic acid combines with sodium PCA to plump skin by deeply hydrating while supporting its repair and renewal. Potent peptides promote collagen production to visibly reduce the appearance of wrinkles and promote firmer, smoother, and more youthful-looking skin.

INGREDIENT HIGHLIGHTS

HYALURONIC ACID

Acting as a "molecular sponge," hyaluronic acid attracts and retains moisture in the skin, plumping it and supporting repair and renewal. It also addresses dryness, environmental stressors, and irritation while smoothing roughness.

SODIUM PCA

This naturally occurring humectant has high water-absorbing properties. It has the ability to absorb moisture from the air while forming a protective barrier to help seal in moisture.

PEPTIDES

Short chains of amino acids, peptides support collagen production, effectively reducing the appearance of fine lines and wrinkles for a youthful, vibrant skin appearance.

SPECIFIC PEPTIDE

This formula uses a special peptide, palmitoyl tripeptide-3, which helps rebuild the dermal structure and repair and prevent the signs of photo-aging, which can contribute to an improved complexion and a more youthful appearance.

SUNFLOWER SEED OIL

This natural emollient nourishes and protects the skin, helping to keep it looking hydrated and youthful with its rich mix of vitamins and antioxidants, including vitamin E, a potent antioxidant that can help protect the skin from free-radical damage.

Add wrinkle-targeting power, antioxidant protection and collagen support to your daily skincare regimen

Always read the product label—use as directed.

BENEFITS

- Lifting action decreases the appearance of fine lines and wrinkles
- Intense hydration helps skin look and feel supple
- Continually improves and refines the texture of skin
- Fast-acting, long-lasting formula
- Contains no mineral oil, animal by-products, or petroleum by-products

USAGE

After cleansing and toning your face, apply on desired areas, such as around the eyes, lips, and on the forehead.

FAQ

Q: What Sunrider® products should I use with this product to get the best results?

A: First, cleanse face with Oi-Lin® Cleansing Cream, then cleanse with Oi-Lin Revitalizing Cleanser. Apply Oi-Lin Facial Toner with a cotton pad. Next, apply Dr. Chen® Refining & Lifting Cream, followed by Oi-Lin Special Treatments over desired areas. Then apply Oi-Lin Deep Moisture Lotion for best results.

Q: How does Dr. Chen® Refining & Lifting Cream work?

A: This advanced formula harnesses the power of potent ingredients like hyaluronic acid and sodium PCA, natural humectants capable of attracting and retaining moisture from the environment to deeply hydrate and plump the skin. Additionally, botanical extracts such as pea, bamboo, and sunflower seed oil work synergistically to nourish, moisturize, and enhance the skin's appearance.
