MADE WITH NATURAL
INGREDIENTS

BENEFITS

- Replenishes electrolytes and minerals lost during perspiration and physical activities
- No added sugars, chemicals or artificial stimulants
- Perfect for athletes and people with active lifestyles
- Concentrated formula for proper hydration

REHYDRATE, REPLENISH, REVITALIZE

This liquid herbal concentrate provides an instant boost of electrolytes (sodium, potassium, and magnesium) and 10 important minerals in one natural shot. The contents of the vial can be added to Fortune Delight® or water to quickly rehydrate and replenish the body. Containing no added chemicals, sugars, or artificial sweeteners, Electrosport®, with its highly concentrated formula, is a healthy alternative to sugary sports drinks, which are big in size but small in nutrients.

PHILOSOPHY OF REGENERATION®

Many sports drinks contain as much as two-thirds the sugar of sodas. They also typically contain high-fructose corn syrup, artificial flavors, and artificial coloring, none of which contribute to optimal health. Instead of polluting your body with these questionable ingredients, choose healthy hydration with Electrosport®. Based on Sunrider's Philosophy of Regeneration®, it's made with pure, natural ingredients to support optimal health and peak performance.

INGREDIENT HIGHLIGHTS

POTASSIUM

Potassium is a very important mineral for the proper function of all cells, tissues, and organs in the body. It is also a vital electrolyte, a substance that conducts electricity in the body.

MAGNESIUM

This macro-mineral plays an essential role in both anaerobic and aerobic energy production, particularly in the metabolism of adenosine triphosphate (ATP), the "energy currency" of the body.

SELENIUM

Selenium is an extremely vital mineral for the human body because it supports immunity, supports antioxidant activity that defends against free radical damage and inflammation, and plays a key role in maintaining a healthy metabolism.

FAQS

Q: Why are electrolytes important?

A: Electrolytes affect the amount of water in your body, the acidity of your blood (pH), your muscle function, and other important processes.

Q: Why do we need to replenish electrolytes?

A: The balance of electrolytes in your body can be easily altered by sweating, vomiting, and diarrhea. People who exercise regularly should replace their electrolytes by drinking a healthy liquid concentrate like Electrosport®.

Q: What are some of the key minerals Electrosport® contains?

A: It contains a synergistic combination of easily assimilated minerals, including calcium, potassium, magnesium, zinc, iron, manganese, chromium and selenium.

RECOMMENDATION

Add one 15-mL bottle to 2 quarts of Fortune Delight®, water, or other beverage. Great for use during an athletic activity or within 30–45 minutes after an athletic activity to replenish lost electrolytes and minerals.
