FAQS

Q: What kind of coverage does this product provide?

A: This foundation will give you medium coverage that's buildable to full coverage. It contains an SPF 15 and works great on all skin types, leaving skin looking clear, dewy, and gorgeous while evening out fine lines.

Q: How can I use this product in a demonstration?

A: Fill two clear glasses with water. With a spoon, mix a small amount of a retail brand of foundation into one glass. Retail brands usually clump up and coat the glass with an oily residue.
