SunnyDew®

OWNER EXPERTISE
FORMULATION

KOSHER
CERTIFIED

SELF-
MANUFACTURED

HALAL
CERTIFIED

MADE WITH NATURAL
INGREDIENTS

BENEFITS

- Enhances flavor of foods and beverages
- Sugar-free
- Rich in antioxidants
- No added chemicals or preservatives
- Highly concentrated for maximum effect
- Zero calories

NATURAL FLAVOR ENHANCER

The main ingredient in SunnyDew® is stevia, an herb indigenous to South America and used by its inhabitants for centuries as a dietary supplement. This all-natural flavor enhancer is made from stevia that undergoes a unique purifying and concentration process that preserves the plant's natural structure in its whole-food form. Free of sugar, carbs, and calories, SunnyDew® makes it possible to satisfy sweet cravings without derailing a healthy diet. Use it daily to add flavor to drinks and dishes and support a healthy lifestyle.

PHILOSOPHY OF REGENERATION®

The formula for SunnyDew® is based on the Philosophy of Regeneration®—the belief that we should nourish and cleanse our bodies with the best nutrition to reach balance, and thus optimal health. In 1995, Sunrider successfully petitioned the Food and Drug Administration (FDA) to lift the import alert on the extract of stevia leaves, thereby clearing the way for the use of stevia as a dietary supplement in the United States.

INGREDIENT HIGHLIGHTS

STEVIA

This natural sweet-tasting plant is high in antioxidants. It belongs to the chrysanthemum family and originated in South America.

CHRYSANTHEMUM

This beautiful flower is an excellent source of antioxidants and contains essential minerals, such as calcium, magnesium, folate, iron, sodium, and potassium.

FAQS

Q: How sweet is stevia?

A: Stevia is estimated to be between 200 and 400 times sweeter than sugar. A little bit goes a long way!

Q: Where does stevia come from?

A: Stevia extract comes from the Stevia rebaudiana plant, an herb in the chrysanthemum family that grows wild as a small shrub in parts of Paraguay and Brazil. The glycosides in its leaves, including up to 10% stevioside, account for its amazing sweetness, making it unique among the nearly 300 species of stevia plants.

Q: How is Sunectar® different from SunnyDew®?

A: Sunectar® is a concentrated raw extract of stevia, while SunnyDew® is a purified extract concentrate of stevia. Compared to Sunectar®, SunnyDew® has a lighter color and a higher concentration of the sweet-tasting component of the stevia plant.

RECOMMENDATION

Add drops as desired to supplement food or drink.
