Servings Per Container about 190

	Amount Per Serving
Proprietary blend:	90 mg †
Ingredients: Stevia leaf extract and chrysanthemum flower.	

† Daily Value not established.

Other ingredients: Water.

FAQs

Q: What does Sunectar® taste like?

A: The main ingredient in Sunectar® is stevia, which can be up to 300 times sweeter than sugar. Start with a single drop—a little bit goes a long way!

Q: Is stevia an herb?

A: Stevia extract comes from *Stevia rebaudiana*, a member chrysanthemum family that grows wild as small shrubs in parts of Paraguay and Brazil. The glycosides in its leaves include up to 10% steviolosides, which gives it amazing sweetness and makes it unique among the nearly 300 species of stevia plants.

Q: How is Sunrider stevia better?

A: Sunrider is an early innovator in products infused with stevia. In 1995, we successfully petitioned the US Food and Drug Administration (FDA) to lift the import alert on the extract of stevia leaves, clearing the way for the use of stevia as a dietary supplement in the US. Our proprietary purifying and concentration process preserves the natural structure of the stevia plant while maximizing the delivery of antioxidants.

Q: How is Sunectar® different from SunnyDew®?

A: Sunectar® is a concentrated raw extract of stevia, while SunnyDew® is a purified extract concentrate of stevia. Sunectar® has a darker color and lower concentration of the sweet-tasting component of the stevia plant.

HOW TO USE

Add drops as desired to supplement food or drink.

NOURISH + CLEANSE = BALANCE

Sunrider® products are based on a simple yet powerful idea that blends Traditional Chinese Medicine with advanced science. We call it our Philosophy of Regeneration®. When you nourish with only the finest natural ingredients and cleanse of harmful chemicals and artificial colors, flavors, and preservatives, you bring your body into balance. A balanced body is a healthy body.
