BENEFITS

- Natural breath freshener
- Convenient for pocket or purse
- Natural flavor
- Free of alcohol, fluoride, sugar, and saccharin
- Concentrated formula

A BURST OF HERBAL REFRESHMENT

A natural, safe mouthwash, Sunsmile® Refresher Drops are free of alcohol and other harsh chemicals. The unique natural formula helps clean the mouth of things that can lead to tooth decay. Super-concentrated, just a few drops added to water provide long-lasting oral freshness. You can mix it with water or place a couple of drops directly on your toothbrush. Add it to your oral hygiene regimen for a burst of herbal refreshment anytime, anywhere.

PHILOSOPHY OF REGENERATION®

Are you concerned about the ingredients that go into the products you use? The SunSmile® line of oral care products is based on the Philosophy of Regeneration® and uses the finest natural ingredients, including plant-based ingredients and essential oils. We never use questionable ingredients like alcohol or artificial colors and flavors. Sunsmile® Refresher Drops feature a unique herbal concentration that provides long-lasting freshness and makes a healthy addition to any oral care routine.

INGREDIENT HIGHLIGHTS

NEEM TREE EXTRACT

This natural ingredient safely cleans teeth and supports healthy gums. It helps the mouth feel clean, healthy, and refreshed.

EUCALYPTUS GLOBUS LEAF OIL

This essential oil is effective in helping to clean the mouth and teeth.

CLOVE OIL

This aromatic herb is a natural breath freshener.

FAQS

Q: How is this product different from the competition?

A: Typical mouthwashes often contain a number of ingredients that can be harmful if swallowed, including up to 30% ethyl alcohol. Alcohol is drying and can strip away the protective mucous membrane in the mouth and throat. The same germ killers used in bathroom cleaning disinfectants (phenol and cresol) are also often used in conventional mouthwash. Many list a 1-800 number to a poison control facility in case of swallowing. Sunsmile® Refresher Drops are safe and toxin free.

RECOMMENDATION

Put 3 to 4 drops in 2 to 4 ounces (50 to 125 ml) of water and swish around in mouth. For even better results, use one drop with SunSmile® Herbal Toothpaste.
