FAQs

Q: What are T-cells?

A: These white blood cells find and fight germs and infections in your body. T-cells are an important part of our immune system.

Q: What does the immune system do?

A: Your immune system fights illness, infection, germs, and parasites by trying to rid your body of any unfamiliar cells.

Q: What is the “wood element”?

A: In Traditional Chinese Medicine, health is the balance of five elements: wood, fire, earth, metal, and water. Each element has its own qualities in your body. Wood is associated with the liver and its characteristics are ambition, courage, and resourcefulness. A “wood imbalance” can cause you to feel aggressive and impulsive. Alpha 20C® help bring your “wood element” into balance.
