

Kandesn[®] Sheer Glow DEW BALM & LIP DEW BALM

Soft Color, Softer Lips

Kandesn® Sheer Glow DEW BALM & LIP DEW BALM

Effortless radiance meets serious lip care. Our ultra-hydrating Sheer Glow Dew Balm delivers a sheer wash of soft color, while Lip Dew Balm adds luster and shine. Both nourish and moisturize lips with hyaluronic acid, vitamin E, and botanical emollients, gliding on smoothly to condition and comfort dry lips. Antioxidant-rich ingredients help keep lips soft, supple, and beautifully refreshed.

HOW TO USE

Apply an even coat across the top and bottom lips. Can be used with Kandesn Lip Colors to enhance color and bring out shine.

BENEFITS

- Deeply moisturizes lips
- Nourishes and conditions with antioxidants
- Softens and smooths
- Delivers a plumper, fuller look
- Lightweight, non-sticky formula for a natural look

FEATURES

- **Sheer Glow Dew Balm** adds a hint of color and buildable coverage for customized looks
- **Lip Dew Balm** intensely moisturizes and adds a glossy finish to your favorite Kandesn Lip Color

FAQ

Q: Why are Kandesn Sheer Glow Dew Balm and Lip Dew Balm better than other brands?

A: Our lip balms contain an exceptionally high percentage of natural emollients and lipids, which have nourishing, conditioning, and moisturizing benefits. They are also packed with antioxidant-rich ingredients that help keep lips soft, supple, and hydrated.

Q: Is sodium hyaluronate superior to hyaluronic acid?

A: Sodium hyaluronate is a more bioavailable form of hyaluronic acid (HA) due to its smaller molecular size. This allows it to penetrate deeper into the skin and lip tissue for a fuller, plumper look. As a humectant, sodium hyaluronate also has an exceptional capacity for drawing in moisture from the environment and helping the skin retain it.

Q: Can I use Kandesn Lip Dew Balm and Sheer Glow Dew Balms with Kandesn Lip Colors?

A: Yes, absolutely! Both of our balms add a fresh, natural look on their own or a glossy finish over your favorite lip color.

INGREDIENT HIGHLIGHTS

SODIUM HYALURONATE

This natural humectant has exceptional water-absorbing properties and is more bioavailable than hyaluronic acid. It helps provide lasting hydration, volume, and smoothness, leaving your lips looking soft, plump, and beautifully refreshed.

TOCOPHERYL ACETATE

This natural and stable form of vitamin E has skin-conditioning benefits and smooths the appearance of fine lines.

SUNFLOWER SEED OIL

This natural emollient retains moisture to help keep lips looking soft, supple, and healthy. It contains a rich mixture of vitamins, fatty acids, and antioxidants that has a nourishing and hydrating effect on the skin.

LINOLEIC ACID AND LINOLENIC ACID

These essential fatty acids help reinforce the skin's natural barrier to lock in moisture. With their emollient properties, they work to smooth the skin's appearance.
