## INGREDIENT HIGHLIGHTS

### BEESWAX

Produced by bees to reinforce their hives, beeswax has soothing properties when used topically. It's rich in vitamin A and protects skin with its humectant, moisturizing properties.

### AVOCADO OIL

One of the most penetrative of all plant oils, avocado oil provides long-lasting moisturizing effects. Potent humectant properties also promote skin softness and skin-plumping hydration.

### WHEAT GERM OIL

Extracted from the germ of the wheat kernel, wheat germ oil helps to support the repair of skin cells that have been damaged by the sun, pollution, or an unhealthy diet. The antioxidants also help fight free radical damage, which can accelerate the aging process on the skin.
