FAQ

Q: Why is a special treatment needed for the eye area?

A: The skin around the eyes is 6–10 times thinner than the skin on your face, making it more prone to visible signs of aging.

HOW TO USE

Apply to the skin around the eye area in a gentle dabbing motion morning and night. Follow with Dr. Chen® Refining & Lifting Cream and Oi-Lin® Replenish Gel. Store product in a dark area to preserve the effectiveness of the ingredients.

INGREDIENT HIGHLIGHTS

HYALURONIC ACID

Hyaluronic acid is known for its exceptional moisture-binding properties, helping to visibly plump and hydrate the skin by attracting and retaining water on the surface.

PEPTIDES

Peptides are short chains of amino acids that contribute to the appearance of smoother and firmer skin by supporting texture and tone, enhancing the skin's overall look.

VITAMIN B5

Also known as pantothenic acid, vitamin B5 offers moisturizing benefits that help soften the skin and reduce the visible signs of dryness and fine lines.
