

Kandesn[®] Pure Bio Cellulose Sheet Mask

Unmask Radiant Skin

Botanical

Plant-based

Eco Friendly

SUNRIDER®

Introducing an exciting skincare innovation to elevate your Kandesn® Pure regimen. Made with the finest vegan ingredients, our skin-soothing mask comfortably contours to your face to provide a deeply quenching burst of hydration. Enriched with a potent blend of sodium PCA, hyaluronic acid, and botanical extracts, this ultra-moisturizing treatment smooths fine lines and wrinkles, tightens the appearance of pores, and leaves your skin refreshed, rejuvenated, and radiant.

INGREDIENT HIGHLIGHTS

SODIUM PCA

This naturally occurring humectant attracts and seals in moisture for a plumped, hydrated look while also helping to restore the skin's protective skin barrier.

NIACINAMIDE

This form of vitamin B3 supports collagen production, which helps diminish the appearance of fine lines, wrinkles, and enlarged pores, resulting in a smoother, more even-looking complexion.

ROSA CENTIFOLIA FLOWER EXTRACT

Rich in vitamin C and tannins, this natural extract provides toning, aromatherapeutic, and antioxidant benefits. Its gentle astringent properties work to tighten the skin, minimizing the appearance of enlarged pores.

BRASSICA OLERACEA EXTRACT (Derived from Broccoli)

This skin-nourishing ingredient is rich in antioxidant vitamins A, C, and E, which help protect the skin from free radicals and environmental damage, reducing signs of premature aging. Highly moisturising fatty acids help lock in moisture and support suppleness.

FAQ

Q: What is a bio cellulose mask?

A: Formulated with fermented coconut fruit extract, this ultra-fine facial mask adheres to the contours of your face like a second skin. This ensures maximum contact as well as optimal absorption and delivery of our Kandesn® Pure ingredients. The seamless staying power of this mask creates a barrier with virtually no evaporation, allowing the skin to retain the hydrating and nourishing ingredients for an extended period.

The texture of a bio cellulose mask feels like a cool, moist gel, but its underlying structure is extremely strong and resilient. Bio cellulose masks don't dry out during application.

Q: Why should I use this mask?

A: Our sheet mask provides an effective treatment for improving the overall health and appearance of your skin, especially when used as part of Kandesn® Pure's 4-step skincare system. Use it as needed to replenish moisture and leave your skin looking dewy, refreshed, and radiant. Applying our mask can also be a relaxing self-care ritual, as it gives you a chance to unwind and pamper yourself with a spa-like experience in the comfort of your home.

BENEFITS

- Delivers intense and immediate hydration
- Reduces the appearance of fine lines and wrinkles
- Helps balance and maintain the skin's protective acid mantle
- Reduces the appearance of pores
- Smooths, soothes, and softens skin
- Calms skin irritation
- Fits seamlessly into your Kandesn® Pure skincare routine

DIRECTIONS

Use 2-3 times per week. Follow these steps for best results:

1. Cleanse face with Kandesn® Pure Cleansing Oil and Foaming Cleaner.
2. Prep skin with Kandesn® Pure Beauty Water.
3. Remove mask from the protective mesh backing and apply to the contours of your face.
4. Allow the mask to work its magic for 15–20 minutes.
5. Remove the mask and gently massage any remaining product into skin.
6. Finish with Kandesn® Pure Hydrating Gel Cream for a complete skin-nurturing experience.

ECO-FRIENDLY SKINCARE

Derived from natural sources and biodegradable, bio cellulose is considered more environmentally friendly than most synthetic mask materials.
