INGREDIENT HIGHLIGHTS

GARDENIA FRUIT

This flowering plant is known for its phytonutrients, specifically carotenoids, which have protective antioxidant properties.

CHINESE RHUBARB ROOT

Also known as da huang, this herb can support the liver and colonic function by supporting the production of bile and digestive fluids.

CHINESE GOLDENSEAL ROOT

The root of this hardy perennial herb contains the alkaloid compounds berberine, which has potent antioxidant effects, and coptisine, which supports digestive health.

BAIKAL SKULLCAP

This plant contains antioxidants known as flavones, which appear to reduce the effects of oxidative stress on various tissues in the body, including the liver.

ALOE VERA LEAF

This popular succulent plant is a nutrient-dense superfood that soothes the overall digestive system and supports normal bowel movements.

HOW TO USE

Take four to eight capsules twice a day with meals.

FAQs

Q: What's the best way to take Sunfit™ Caps?

A: To jump-start weight loss, take 2–3 capsules two times per day with meals, for a two-week period. Before you resume taking Sunfit™ Caps, wait for at least one month. We recommend including them in a sustainable weight-management program that includes regular exercise and a balanced diet with high-fiber, low-fat foods.

Q: How does digestion affect weight loss?

A: Your digestive system breaks down food into nutrients such as vitamins and minerals, which your body absorbs, while eliminating waste and toxins. Frequently, however, due to poor diet or other imbalances in the body, waste can build up and cause a sluggish digestive system, which can lead to weight gain. Sunfit™ Caps supports the smooth running of your digestive system, including its natural cleansing processes, helping to clear waste from your body.
