## INGREDIENT HIGHLIGHTS

### CHINESE CLUB MOSS

A traditional Chinese herb that contains huperzine A, a naturally occurring alkaloid that may benefit cognitive function.

### GINGKO BILOBA

This plant contains high levels of flavonoids and terpenoids, compounds known for their strong antioxidant effects, which may include neuroprotective benefits.

### NATURAL CHOLINE

This natural choline compound, L-Alpha Glycerylphosphorylcholine, increases the release of the neurotransmitter acetylcholine, which has been shown to support learning, focus, and memory.

### VITAMIN B9 (FOLATE) & VITAMIN B12

Folate is believed to slow age-related cognitive and memory decline while vitamin B12 helps in the production of neurotransmitters, which relay messages in the nervous system and brain.

### PHOSPHOLIPIDS

Phosphatidylserine is a phospholipid that covers and protects the cells in your brain and carries messages between them. It plays an important role in keeping your mind and memory sharp.

## FAQs

**Q: How is Top™ Focus different from other “mental performance” products?**

**A:** Many of these products contain stimulants, or they contain just a few key ingredients that only work on one neural pathway. Top™ Focus is different because we synergize herbal extracts such as Gingko biloba, Chinese club moss, and green tea, plus minerals, amino acids, lipids, and vitamins known to support brain health and function.

**A: How long do the benefits last, and will it negatively affect my mood or sleep?**

**Q:** Top™ Focus starts working in 15 minutes and lasts for about 4 hours. Made with select natural ingredients and free of sugars and added stimulants, it won't make you feel agitated, cause an energy crash, or interfere with sleep.
