- Intense hydration helps skin look and feel supple
- Continually improves and refines the texture of skin
- Fast-acting and long-lasting with a superior combination of herbal ingredients
- Contains no mineral oil, animal by-products, or petroleum by-products

Product Fact Sheet

Dr. Chen® Refining & Lifting Cream

RESTORE AND PRESERVE THE APPEARANCE OF YOUTHFUL SKIN

This special formula produces amazing age-defying results by using the latest in modern skin care technology to dramatically reduce the visible signs of aging. With continued use, the restorative formula appears to lift away fine lines and preserve the appearance of youthful, healthy skin. It's the natural solution to tired, dry-looking skin.

PHILOSOPHY OF REGENERATION®

Sunrider understands that the skin is something vital and complex. Our skin is the largest organ in the body; it breathes, absorbs nutrients, and expels waste. Like the rest of our organs, it must be nourished and cleansed. This is why we don't use mineral oil or inferior ingredients, which clog pores and suffocate the skin. Instead, our cosmetic and skin care lines use the latest technology and the finest botanical ingredients such as peptides and hyaluronic acid.

INGREDIENT HIGHLIGHTS

HYALURONIC ACID

Acting like a "molecular sponge," hyaluronic acid is an excellent natural skin "plumper." It supports skin repair and renewal and remedies dryness, environmental stresses, and irritation.

SODIUM HYALURONATE

The salt form of the ingredient hyaluronic acid, sodium hyaluronate is considered more bioavailable to skin than pure hyaluronic acid and can hold up to 1,000 times its weight in water.

SODIUM PCA

This naturally occurring humectant (moisturizer) has high water-absorbing properties and even has the ability to absorb moisture from the air. It holds several times its weight in water.

PEPTIDES

Peptides are chains of amino acids that are the building blocks of proteins in the skin. They support collagen production, visibly reducing the unwanted appearance of wrinkles to promote firmer, smoother, and more youthful-looking skin.

FAQS

- Q:** What Sunrider® products should I use with this product to get the best results?
- A:** First, cleanse face with Oi-Lin® Cleansing Cream, then cleanse with Oi-Lin® Revitalizing Cleanser. Apply Oi-Lin® Facial Toner with a cotton pad. Next, apply Dr. Chen® Refining & Lifting Cream, followed by Oi-Lin® Special Treatments over desired areas. Then apply Oi-Lin® Deep Moisture Lotion for best results.
- Q:** How does Dr. Chen® Refining & Lifting Cream work?
- A:** The advanced formula envelops skin with intense hygroscopic agents such as hyaluronic acid and sodium PCA, a naturally occurring humectant (a substance that promotes moisture retention) in the skin. Pea, bamboo, and other botanical extracts aid in firming and supporting skin's appearance. Oxygen transporters and peptides support skin function, revitalizing the skin for the appearance of increased smoothness.

RECOMMENDATION

After cleansing and toning your face, apply Dr. Chen® Refining & Lifting Cream on desired areas, such as around the eyes, lips, and on the forehead. For better results, apply two times per day.
