FAQs

Q: Why is natural laundry soap better?

A: Because they're naturally powerful. Many brands contain harmful chemicals and ingredients like sodium lauryl sulfate/sodium laureth sulfate, dioxanes, nonylphenol ethoxylate, and phosphates that are inhaled while you do laundry or linger on the clothes you wear. These carcinogenic ingredients are dangerous to people, contaminate waterways, and harm the overall environment.

Natural, hypoallergenic SunBright® SuperClean™ Laundry contains no dyes, harmful chemicals, or artificial perfumes and fragrances. It leaves laundry clean and fresh without causing irritating allergic reactions like contact dermatitis, sneezing, and watery eyes.

HOW TO USE

Use 1 fl. oz./30 mL (about 2 tablespoons [each tablespoon equals 15 mL]) per regular load of laundry.

For high-efficiency (HE) washing machines, use 0.5 fl. oz./15 mL.

Pre-treat stains with SunBright® SuperClean™ Laundry for 5 minutes, rub, and wash.

Add SunBright® SuperClean™ Laundry as the washer fills with water, then add laundry.

For heavily soiled loads, add more SunBright® SuperClean™ Laundry.
