INGREDIENT HIGHLIGHTS

GYMNEMA

This plant, known for its “sugar-blocking” property, contains gymnemic acids, which are thought to lock into intestinal receptors, effectively blocking the absorption of sugar and processed carbs.

COIX FRUIT

This tropical plant is a rich source of antioxidants, which protect cells against the damaging effects of free radicals. And studies suggest that the fiber contained in coix fruit may help decrease how much fat and cholesterol the body absorbs.

LOTUS ROOT

An excellent source of dietary fiber, which slows the digestion of carbohydrates. Lotus root also contains a unique mix of fiber, vitamins, minerals, and phytonutrients.

HOW TO USE

Take two to three capsules, 5-10 minutes before meals. For best results, swallow capsules and use in conjunction with a balanced diet and regular exercise.

FAQs

Q: How does VitaTaste® work?

A: Simply put, VitaTaste® contains molecules that are similar to glucose molecules. Glucose is the sugar in our bloodstream you get from the food you eat. The molecules from VitaTaste® fill the receptors located on the external layers of the intestines, temporarily blocking the absorption of sugar molecules. And by blocking these receptors, VitaTaste® stops the absorption of sugar and processed carbs, which can then be excreted by the body as waste before they can be stored as fat.

VitaTaste® is also full of antioxidants, which cleanse the body from the inside, protecting it from free radicals and supporting the removal of fat and toxins.

NOURISH + CLEANSE = BALANCE

Sunrider® products are based on a simple yet powerful idea that blends Traditional Chinese Medicine with advanced science. We call it our Philosophy of Regeneration®. When you nourish with only the finest natural ingredients and cleanse of harmful chemicals and artificial colors, flavors, and preservatives, you bring your body into balance. A balanced body is a healthy body.
