FAQs

Q: Are there any skin types that should avoid using this product?

A: None. But skin may become more sensitive to the sun, so use it with your favorite Oi-Lin® sunscreen.

Q: What's so special about the vitamin C in this product?

A: Our vitamin C is a super-concentrated, stable, and oil-soluble (which allows it to better penetrate the skin) vitamin C ester with antioxidant properties. It supports collagen production to help give skin greater appearance of firmness and resiliency. It also helps lighten pigmented areas and protect against damage due to sun exposure. Unstable vitamin C, commonly used in other brands, breaks down quickly after the product is opened.

HOW TO USE

Apply a small amount to a clean face and throat after your skin care regimen. It's suggested that it be used with sunscreen.
