FAQs

Q: Why is Oi-Lin® Liquid Soap superior to other soaps?

A: Many commercial soaps use synthetic ingredients and overpowering artificial fragrances, and they often contain harsh ingredients that strip the natural oils from skin, which can cause excessive dryness, making the skin more susceptible to infection and irritation. The chemicals contained in the fragrances in scented soaps can cause additional problems. In healthy contrast, Oi-Lin® Liquid Soap is expertly formulated with natural ingredients such as rosemary extract, aloe vera, and cucumber extract. Oi-Lin® Liquid Soap keeps the natural acid mantle on the skin intact, which enables it to retain moisture better.
