Earnings stated are not necessarily representative or typical of earnings Sunrider Independent Business Owners (IBOs) can or will earn through participation in the Sunrider Infinity Compensation Plan. These statements should not be considered as guarantees or projections of your actual earnings or profits. "Annual Income" of active Sunrider IBOs was calculated by first calculating the average "Monthly Income" IBOs at each rank made only in the months they were active. These one-month averages were then annualized by multiplying by twelve months in order to come up with the "Annual Income." During 2024, the calculated average annual income of an active IBO is 709 834 Ft and 26% of all IBOs, active and inactive, on an average, received a payment. An active Sunrider IBO is an IBO who has 200 PV or more in a month. As with any other independent business, success results only from dedicated sales efforts, hard work, diligence, and leadership. Please see the Sunrider® Business Guide for more details on the compensation plan.
