BETTCHEER WHIZARD VERSA TRIMMER

Product features

Bettcher's new Whizard Versa Trimmer is designed for Butchers and Small Processors. The revolutionary twist-n-go technology allows users to quickly change between different blade sizes to accomplish a diverse range of applications successfully.

1	Industry Leading Rotary Tool	Achieve better throughput and higher yields while also reducing the skill needed by operators.
2	On-Board Steeling Device (optional)	Faster and easier maintenance simply press the button when needed to keep the knife bevel straight and sharp.
3	Built-in Zero Grease Fitting	Reduce tool noise and increase part life by quickly and easily adding food safe grease.
4	Twist-N-Go Head	Quickly change between different blade sizes depending on the application.
5	180° Degree Rotatable Head	Choose on/off lever placement in the palm or at the fingertips to improve comfort and reduce strain.
6	Integrated Safety Lever	Prevents unintended activation of the tool, reducing risk of injury.
7	High Speed/Low Speed Button	Choose the best speed for the application to achieve the highest throughput and appearance.
8	High Speed LED Indicator	Easily identify what speed the tool is operating in.
9	Lightweight/Ergonomic Design	Lightweight and ergonomic design reduces operator strain and allows for longer run time with less fatigue.
10	Dishwasher Safe Head	Waterproof/Dishwasher safe design makes cleaning simple and easy.
11	Quick Blade Release	Quickly change blades with just a few turns of the screws.
12	Precision Gauge	Achieve consistent results in the thickness and appearance of Gyro and Shwarma products. Simple and easy depth adjustment with the turn of a single knob.
