

REVOLUTIONARY **OPENING AID**

BY **SEALPAC**<sup>®</sup>

# EasyPeelPoint

**FOR THERMOFORMER PACKS**

Only genuine with this mark

## EasyPeelPoint leaves an impression

With EasyPeelPoint SEALPAC has moved the peel corner within the contours of the pack. This innovative system with its clever opening point ensures that thermoformer packs can be opened even easier. Just press, and the corner of the top film releases from the sealing edge of the pack.

EasyPeelPoint is suitable for the entire range of food products packed on a thermoformer, such as sliced meats and cheeses, sausages and seafood.

## Benefits:

- Effortless opening of sealed packs
- Easy-to-grip peel corner
- Less subjective to so-called cold sealing
- Feasible on all common SEALPAC thermoformers and toolings

INNOVATIVE OPENING POINT **CREATES HIGHLIGHTS:**

# EasyPeelPoint

**FOR THERMOFORMER PACKS**

EasyPeelPoint is the new easy-opening method by SEALPAC, which ensures effortless opening of thermoformer packs. This innovative system intelligently moves the peel corner within the contours of the pack.

## And this is how it works

The top film is pressed into a round cavity and is thus released from the sealing edge. With the emerging, easy-to-grip peel corner, the top film can be removed from the pack with minimum force.

## Easy and efficient

EasyPeelPoint can be applied on common toolings for all standard packaging formats on SEALPAC's RE-series thermoformers. The system does not intervene with the existing logistical chain and avoids costly changes to the cutting line of the packaging machine. Furthermore, the peel corner within the contours of the pack is less subjective to unwanted cold sealing, which regularly occurs in the cutting area of current thermoforming processes.

## Advantages at a glance:

- Simplified opening of thermoformer packs
- Self-explanatory system with natural feel
- Less subjective to so-called cold sealing
- Easy-to-grip peel corner for effortless removal of top film
- Requires no special cutting system
- High-performance packaging process
- Available on all common SEALPAC thermoformers and toolings

## SEALPAC – your package to success.

As a high-precision manufacturer, we support our customers in reaching their targets. We work together to create cost-effective and guaranteed high-quality solutions. Our flexible and dedicated approach will guide you in exploring individual alternatives to help shape your future.
