

REUSABLE VACUUM POUCH 100µ

ONE MATERIAL – MANY OPTIONS

RECYCLABLE PE-POUCHES

Excellent barrier properties protect products efficiently

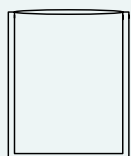

Recyclable packaging solutions are playing an increasingly important role, particularly in light of the EU packaging regulation (PPWR), which aims to make all packaging in the EU recyclable or reusable by 2030.

Our new reusable PE-pouches integrate seamlessly into a circular system, as they are recognised within the EU as recyclable mono-material PE solutions. This facilitates recycling and supports a resource-saving circular economy.

Thanks to their excellent barrier properties, they provide effective product protection and are available as 3-side sealed pouches in various sizes.

Sizes

Vacuum pouches in PE 100 μ

Standard
3-sided seal

W 150 x L 200 mm

W 200 x L 300 mm

W 300 x L 400 mm

W 400 x L 600 mm

KEY ADVANTAGES

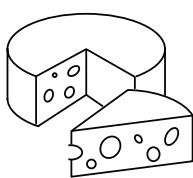

- ✓ Recyclable according to PPWR
- ✓ Maximum product protection
- ✓ Excellent barrier properties against moisture and oxygen
- ✓ Optimal aroma preservation - maintains taste and freshness
- ✓ Good sealability
- ✓ Very good mechanical properties such as puncture resistance and flexibility

One material - many options

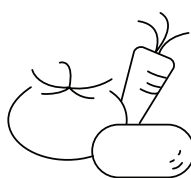

IDEAL FOR PACKAGING:

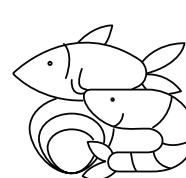

Meat and sausages

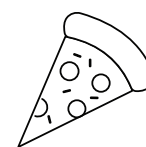

Cheese

Vegetables

Fish

Convenience products
