# Healthcare industry news

## July 2022

### Standards in action across healthcare

Our focus is to work collaboratively with industry to support improvements to safety and quality in Healthcare through the implementation of GS1 standards.

This newsletter highlights some of the initiatives within the local and global community where GS1 standards play a role in improving Healthcare.

Australian Government  
Department of Health  
Therapeutic Goods Administration

## Australian 'UDI' Database Sandpit open

The Therapeutic Goods Administration (TGA) has launched its sandpit environment to enable user feedback to aid the design of the planned Australian Unique Device Identification Database (AusUDID).

Interested parties are invited to register (including those wishing to publish from NPC).
