May 2024

Standards in action across healthcare

Our focus is to work collaboratively with industry to support improvements to safety and quality in Healthcare through the implementation of GS1 standards.

This newsletter highlights some of the initiatives within the local and global community where GS1 standards play a role in improving Healthcare.

Digital Health Festival 2024

Our amazing Healthcare team had the pleasure of chatting with attendees at the recent Digital Health Festival last week. One was especially keen to learn more about NPC in healthcare and interviewed Michel Hulzebos, Director – Healthcare.

TGA Consultation on Availability of Instructions For Use (IFU) in more flexible formats

The TGA has published an open consultation on how IFU are provided, and whether electronic IFU (eIFU) should be made available in a more flexible format.

For further details about this consultation, refer to the paper published on the [TGA Consultation Hub](#) and feedback can be submitted [here](#).

The feedback received through this consultation will contribute towards further strengthening of the regulatory framework related to IFU for medical devices. The consultation is open for feedback until Tuesday 28 May 2024.

When was the last time you had your barcodes checked?

If it has been over 12 months, it's time to book it in! Routine testing of your barcodes (a tiny yet crucial part of your business) is often overlooked as a key way to improve operating efficiency and customer satisfaction.

The GS1 Australia Barcode Check service isn't just about checking the quality of barcodes, we test the validity and integrity of the number, standards compliance, positioning and more.
