Section 6: Terms and Conditions

- GS1 Australia prides itself on the quality of our marketing material and, in accordance with our **Privacy Policy**, will only send you information we believe to be relevant to you. In accordance with the Australian Anti-Spam Legislation we respect that you may not want to receive this information. You can unsubscribe from any direct marketing material at any time, by either unsubscribing from that communication or by doing so in the Preference Management Centre, subject to that material not being considered essential to your role within the GS1 Australia Subscription Membership.
- Project i-TRACE Barcode Certification is granted when samples provided by stated organization meet the data and label/plate requirements of Project i-TRACE as specified in the **Australian Rail AIDC Guideline**. Certification cannot be claimed for label/plates not approved. Any major change to the label/plates may require re-submission for compliancy review.
- The Project i-Trace Barcode Certification will remain current for the earlier of two years from the date of certification or, in the event of a change to the applicable standards, up to six months after the date of applicable standards change. Re-certification can be requested and delivered upon payment of the then current fees.
- Certification of Project i-TRACE Barcodes only entitles the organisations developing, distributing or using the certified versions of the label/plates to represent that the barcode samples are certified and not the organisation or its team members or partners. The organisation warrants that it will only use the certification marketing seals granted to it for the purpose the seals were intended.
- GS1 does not warrant that any Project i-TRACE Barcodes will be fit for purpose or compliant with the standards, that the standards will not change in the future requiring further certification, or that the organisation seeking certification will derive any material benefit from such certification. Organisations using compliant barcodes will endeavour to use all reasonable efforts to ensure that the information encoded within the label/plate is legitimately applicable and available to be used.
