B Search and Filter Bar
Filter your product list by retailer or conduct single or bulk searches

C Retailer Responses
View which retailers your product is available to and the responses to your item and price data

The screenshot shows the 'Products' page in the NPC Xpress system. At the top, there's a navigation bar with the GS1 Australia logo, 'NPC Xpress', and a 'Products' tab. Below the navigation bar, there's a search and filter section with a dropdown for 'All Retailers', a 'Product Search' input field, and buttons for 'Bulk Search' and 'Clear Search'. A 'Create New Product' button is also visible. The main content area shows a table of products with 5 results. The table has columns for 'Your Code', 'GTINs', 'Description', 'Retailer', 'Item Data', and '\$ Price Data'. The products are color-coded: white (draft), red (submission error), and green (successfully submitted). An action menu is open for the green product 'GS1_00072', showing options like 'Create a Copy', 'View', 'Edit', 'Price for Coles', 'Price for Woolworths AU', and 'Publish to Drakes'. Below the table, there's a legend for status symbols: 'Edit Draft' (pencil icon), 'In Progress' (cloud with up arrow), 'Submission Error' (red triangle), and 'Submitted' (green cloud). A callout box explains that the action menu allows adding pricing, updating, or duplicating products.
